

# TARIFF BILL IN LIMELIGHT AT CAPITAL

## SENATOR MOSES IN ATTACK ON HIS PARTY FOR SPONSORING IT

**Says It is Not a Republican Measure--Alleges that Lobby Most Arrogant The Capital Has Ever Seen--Ashurst Also Warns Colleagues About Measure.**

(By The Associated Press)  
WASHINGTON, May 9.—Party lines were broken in the senate during debate on the emergency tariff bill today, Senator Moses, Republican, New Hampshire, delivering a scathing denunciation of it and Senator Ashurst, Democrat, Arizona, warning his colleagues not to let "the folks back home" learn that they stood for free trade.

Senator Moses charged a great lobby was pressing for passage of the bill and attacked the leadership of his party for its part in seeking to enact such legislation. It was not a Republican measure, he said, and had no support from the white house insofar as it proposed to continue war time restrictions against importation of dyes.

Senator Ashurst said Democrats had lost elections on the issue of free trade and the day had come when the rights of the agriculturists must be given equal consideration with those of the manufacturers.

Mr. Moses' drive against the lobby, which he said was the "largest, most highly organized, best paid and most arrogant of any this capital has ever seen," brought a rejoinder from Senator Knox, who sponsored the amendment restricting dye importations.

Mr. Knox argued that Mr. Moses' attitude was not based on needs of the government in time of war. "Charles Men Received Money," Mr. Moses charged that Joseph H. Choate, Jr., New York attorney and Judge J. Harry Covington, had received \$25,000 each for their part in working for the bill and detailed other alleged expenses.

"Woodrow Wilson had the vision of what the dyestuff industry meant," Mr. Knox said. "Twice he called to the attention of congress the need of aiding it."

**EFFORT TO INCREASE  
APPROPRIATION FAILS**  
Effort to increase amount of vocational training bill for teachers from \$100,000 to \$500,000 voted down.

Washington, May 9.—Efforts to increase the \$1,200,000 carried in the army appropriation bill for vocational training of enlisted men failed in the house today, an amendment offered by Representative McSwain, Democrat, South Carolina, for an addition of from \$100,000 to \$500,000 in the amount for salaries of instructors being voted down.

The army is organized for fighting, not for going to school," Representative Greene, Republican, Vermont, declared. Representative Walsh, Republican, Massachusetts, said it was of prime importance to train an army which would be prepared for war and the teaching of stenography and other subjects would discourage re-enlistments as the men would utilize their acquired knowledge in the business world.

**DROUTH PREVAILS  
THROUGHOUT RUSSIA**  
Riga, May 9.—A drouth prevalent throughout almost all of Russia has added a new difficulty to Premier Lenin's program for the reconstruction of Russia, which urged heavy crops.

## PROPOSAL FOR DISARMAMENT IS TO BE PRESSED

**Despite Fact Harding  
Has Asked For No  
Action**

(By The Associated Press)  
WASHINGTON, May 9.—Proposals looking to naval disarmament will be pressed in the senate, notwithstanding the wish of President Harding that congress take no action on the subject at present, Senator Borah announced tonight. At the same time, he said, there was no intention of interfering with the executive authority.

President Harding in urging that congress take no action has indicated he would prefer to have it taken up by Ambassador Harvey as his personal representative before the allied supreme court, when the international situation is such as to warrant the calling of a conference of powers to consider limiting naval armaments.

Senator Borah has introduced a resolution requesting the president to call a conference between Great Britain, Japan and the United States to discuss disarmament and will press for action when the naval appropriation bill is considered in the senate.

**Question of Taxation**  
Disarmament, he said, is primarily a question of taxation, a subject exclusively given to congress.

"The fact that the plan or suggestion, may incidentally touch our relationship with other nations should not be taken as prohibitive of congress' action," Senator Borah continued. "We simply propose to urge the only plan by which it is possible for congress to reduce these fearful burdens which are now ruling the people."

While an almost general reduction from the 7 per cent rate on commercial paper has been made by the reserve banks, financial experts here are of the opinion that no corresponding reduction of the rate on paper secured by government bonds is to be expected. On the other hand, the belief is strong that an increase in the government rate at present varying from five to five 1/2 per cent is rather to be expected, making a more uniform six per cent rate on all classes of securities in the various districts.

**CLAIMS THAT DOG  
COMMITTED SUICIDE**

BOSTON, May 9.—To the contention of John Chaisson, in a suit for \$10,000 damages, that his dog was using due care when he was killed by an automobile driven by P. J. Donaghue, the latter answered in superior court today that the animal was a suicide.

The court has two unusual questions to decide: Whether a dog may be said to have used due care, and whether a dog may be considered to have ended its life intentionally.

Mr. Donaghue, an attorney, in his answer said: "The dog was crossing the street in front of the defendant's automobile. He suddenly turned and revolved in a circle, snapping and biting at other animals. Becoming despondent at his inability to dislodge said animals, he hurled himself under the defendant's automobile and thereby committed suicide."

**WOULD GIVE WAR  
VETS PREFERENCE**  
Washington, May 9.—Preference to World War veterans in employment in government reclamations projects would be given under a bill by Senator Gooding, Republican, Idaho, passed today by the senate and sent to the house.

**RESIGNATION OF  
CAPTAIN PAUL FOLEY**  
Washington, May 9.—The resignation of Captain Paul Foley, U. S. N., as director of operations of the shipping board, was announced tonight by Chairman Benson. W. B. Kenne, assistant director of operations, has been designated acting director.

## NATIONAL UNION REPRESENTATIVES CAUSED TROUBLE

**Manager Says Caused  
Trouble Between  
Road and Men**

(By The Associated Press)  
CHICAGO, May 9.—Amicable relations between the Mississippi Central Railroad and its employees were disrupted by the interference of national union representatives, according to L. E. Faulkner, of Hattiesburg, Miss., general manager, appearing before the railroad labor board today. He was summoned to answer charges of violation of the transportation act in arbitrarily reducing wages on February 1.

Mr. Faulkner related the story of his road's financial tribulations. After making a trip over the road and finding employees willing to accept a wage cut, he said, he called a conference at which it was agreed to submit the wage proposal to a vote.

"The vote was put off, and these union representatives stepped in to say they would prevent the vote, as it might lead other roads to adopt the same methods of dealing with their own employees," Mr. Faulkner said.

At the opening of the case, Bird Robinson, president of the American Short Line Association, made a short address charging union officers with undue interference in the smaller railroads' business.

"These roads have been going along nicely with their men until the national union representatives came in," Mr. Robinson said. "We are convinced their whole action is part of the general policy of labor to nationalize the railroads and establish a labor trust."

**Preparing for New Hearing.**  
The board today set about preparing for a new wage hearing involving 15 new roads and including 75 additional disputes brought by carriers which were parties to a wage hearing concluded last week. All of the roads ask reduction of unskilled labor rates and several ask reductions in other classes of labor as well.

Revision of the docket under which the wage disputes concluded last week has brought the number of roads in that hearing down to 35. All asked reduction of common labor pay and many appealed for cuts in other departments. Many roads which did not include all classes of employees in previous submissions have now presented disputes in the remaining classes.

A decision on the previous wage case by June 15 was declared probable by members of the board. The board's statistical staff went to work immediately after the hearing to summarize and sift the mass of figures with which both sides flooded the hearing. A large part of the evidence would be thrown out on final consideration, it was indicated today, because members consider it irrelevant.

"The weight which exhibits and testimony concerning financial management, either past or present, possible economies, waste, purchase of materials and such matters will have in making the decision will be equal only to what each individual considers such evidence worth, a public member of the board said today.

Doubt was also expressed by members that the employees' play for a living wage, would play a very large part in the board's decision.

"It will be a matter of determining what the board considers sufficient for a living wage," one member said.

**Buenos Aires Port  
Workers Strike**  
Buenos Aires, May 9.—(By the A. P.)—The port workers of Buenos Aires struck today. They notified the government that they would not return to work until assurances had been given that the non-union labor which the labor protective association of employees had announced it intended using to carry on the port operations would not be permitted to work.

**JAPANESE DELEGATION  
SAILS FOR U. S.**  
Tokio, May 9.—The delegation of the Japanese diet bound for the United States for a visit expected to last about three months sailed from Yokohama today. Admiral Sotokichi Chihara, whom the newspapers say is probably going to Washington to consult with Secretary Hughes on the Japanese situation, also sailed.

## A. F. OF L. WILL ASK CONGRESS TO NAME COMMISSION

**Want Investigation of Entire  
Railroad Situation**

(By The Associated Press)  
CINCINNATI, May 9.—The executive council of the American Federation of Labor, today decided to ask the federation to call upon congress to authorize a special public commission to investigate the entire railroad situation.

The recommendation, to be contained in the council's annual report at the federation's annual convention in Denver June 13, it was learned, asks that congress enact legislation providing for a commission comprised of representatives of the public, the railroad workers, railroad security holders, railroad executives, shippers, business and other interests.

The council takes the position, it was learned, that such an impartial investigation is necessary to work out a solution of the entire transportation problem.

The day was taken up with a discussion of the railroad situation. President Gompers made a complete report on what congress accomplished during the last year in bringing about a solution of the railroad situation.

This report, according to council members, showed that no constructive remedial railroad legislation had been enacted during the last year. It detailed the federation's opposition to the Esch-Cummins act and urged labor to continue its fight to bring about the repeal of this legislation.

The executive council also will report progress to the Denver convention in carrying out the declaration of the Montreal meeting of 1919 calling for "government ownership and democratic control of the railroad systems and necessary international and waterways."

While members of the council declined to discuss the debate in today's meeting, it is understood that the council is divided on the question of government ownership. Several members took the stand that it would take the right of strike away from the railroad workers.

## HAD UNIQUE PLAN FOR DEFRAUDING WITH MONEY ORDERS

**Government Has Sustained  
Heavy Loss Thru Scheme  
Gang Worked**

(By The Associated Press)  
NEW YORK, May 9.—Information furnished department of justice officials by two convicts in the Atlanta federal penitentiary caused the arrest of three men charged with obtaining more than \$250,000 by forging stolen money order blanks.

Simultaneous with the arrest here, a man and woman were taken into custody by the Cleveland police. The names of the five prisoners were withheld by authorities, who said the master mind of the conspiracy was being trailed.

This band, authorities declared, worked in a novel way. One of them would obtain a position in a drug store soda fountain having easy access to a postal sub-station, and steal a pad of money orders and an official postal stamp. The blanks and the stamp would then be mailed to a confederate in another city. Money orders, apparently genuine, began to flood the cities in which the band worked.

The forged money orders were mailed back and forth, from city to city, to escape detection by federal agents, the authorities declared. Hotel keepers and theaters were the heaviest sufferers.

## PRESIDENT REVIEWED SHRINERS PARADE

WASHINGTON, May 9.—President Harding today reviewed a parade of shriners held in connection with the sixteenth annual convention of the National League of Masonic clubs.

Several thousand shriners filed past the executive offices in automobiles and on foot.

Smilingly the president declined the invitation shouted enthusiastically at him to "come on and join us" but he demonstrated his familiarity with the rites by giving the grand salutation in answer to that extended to him.

A shriner seated rather insecurely upon a camel almost lost his perch with his approving cry of "at-a-boy, Mr. President."

## MRS. BERGDOLL GOT HUGE SUM FROM TREASURY IN 1919

**Clerk of Department  
Tells Investigating  
Committee**

(By The Associated Press)  
WASHINGTON, May 9.—The fact was established today thru W. L. Alexander, a clerk in the treasury department, by the house committee investigating the escape of Grover Cleveland Bergdoll, that the mother of the draft dodger and a friend obtained \$105,000 in gold from the treasury in the fall of 1919. But from there the trail was not uncovered by the committee to the buried pot in the mountains of Maryland.

James Romig, formerly a police magistrate of Philadelphia and now awaiting sentence on conviction of conspiracy to aid Bergdoll, was the agent, Alexander said, thru whom \$45,000, the first batch of gold, was obtained and carried away. On his second trip to Washington, Romig was accompanied by Mrs. Bergdoll and they drove to Philadelphia with \$60,000 in gold. When he made his first visit to the treasury, Romig found clerks unwilling to turn over even \$20,000 on their own responsibility, Alexander said, and he fretted until his application was laid before R. C. Leffingwell, then an assistant secretary, and approved. This amount was given in exchange of gold certificates, but once it had been placed within a nearby automobile, Romig went back for more.

There was some delay, according to the witness, until Romig got it. There was no embargo on the withdrawal of government gold, but the policy of the department as explained by Alexander was to keep it in the vaults by placing diplomatic obstacles in the way of people seeking it.

**Carried Away \$60,000.**  
Three weeks later Romig returned with Mrs. Bergdoll. It was brought out that when the woman was at the treasury posters were displayed offering a reward or the capture of Bergdoll, the deserter. Romig, satisfied with the results of his first trip, pushed a large bundle of bills thru the wicket window, and after some delay, Alexander said, and with the approval of the treasurer, struggled down the corridors with more gold than a stevedore could lift—\$60,000, mostly eagles.

What became of the treasure after the Bergdolls left the city was not brought out. Counsel for Bergdoll had told the committee they had checked on the tale of the gold and were convinced it had been buried and that they were impressed with the sincerity of the deserter that he wanted to recover it.

The gold chapter was related just after Major General March, chief of staff of the army, had given his views on the subject of getting Bergdoll back from Germany to serve his five year sentence, and had declared diplomatic moves were under way to get him. Bergdoll he described as a "bad specimen of deserter" and frankly stated he would not have apologized had Americans succeeded in their efforts to kidnap him on German soil.

Other witnesses were Edward S. Bailey, law partner of Samuel T. Ansell, counsel for Bergdoll, and Colonel Julius A. Penn, assistant to Major General Harris, adjutant general of the army.

Mr. Bailey reiterated that former Judge John W. Westcott of New Jersey discussed plans for the expedition to the mountains, prior to the escape. Judge Westcott had testified that he knew nothing of any so-called buried treasure until he read it in the newspapers after Bergdoll had eluded his military guard at Philadelphia a year ago.

**GERMANS GROWING  
NERVOUS AND SULLEN**

DUSSELDORF, May 9.—As the day approaches for the possible occupation of additional German territory by the allies, the temper of the population seems to be growing more nervous and sullen. Leaves of officers and soldiers have been reduced to a minimum and fewer troops are visible in the streets. Belgian batteries are trained on the remainder of Dusseldorf.

French headquarters has informed Burgomaster Kottgen that the artillery would open fire at the first outbreak of rioting.

## EDITOR OF QUARTERLY REVIEW COMMITTS SUICIDE

Bowling Green, Mo., May 9.—Long a sufferer from insomnia, Dr. Frank W. Thomas, 48, editor of the Quarterly Review of the Methodist Episcopal church of the south, and one of the most prominent men in the national conference of the church, committed suicide by hanging today.

## LOOK FOR ACTION ON TWO IMPORTANT BILLS IN SENATE

**The State Police Bill and Grain Exchange Measure May Come up in the Illinois Senate Today—Bill Has Been Introduced for Standard Annuity Fund in Chicago**

(By The Associated Press)  
SPRINGFIELD, Ill., May 9.—Indications of action tomorrow on two important pieces of legislation—the state police and grain exchange bills—were given tonight by Senators Dunlap and Lantz, respective sponsors of the measures.

"I will see what the roll call shows in the morning," Senator Dunlap said. "If enough senators are here I will call up the police bill."

The bill has been on the order of third reading for weeks. Senator Lantz's grain exchange bills are on second reading.

In the senate tonight Senator Glavin, Democrat, of Chicago, introduced a bill affecting 5,200 municipal employees of Chicago. It provides for a standard annuity and benefit fund. The taxing power is increased to eight-tenths of a mill, doubling the city tax and the contributions to the fund by employees is tripled.

**Many Benefit in Pension Fund.**  
All city employees except police, firemen, library, school and house of correction employees are included in the pension provisions. These have separate pension funds. Only civil service employees and those who were employed before civil service was adopted are eligible. The minimum age for receiving a pension is fixed at 55 years after twenty years' service.

"It is the plan recommended by former Governor Lowden's commission," Senator Glavin said. A bill fixing the height of Illinois automobile license numbers at three inches was introduced by Senator Duval of Belleville. The size will enable the secretary of state to put a hyphen between numbers so they can be more easily distinguished.

The house held a brief session tonight advancing a score of bills to the order of second reading.

## ACCEPT ULTIMATUM IS ADVICE GIVEN BY GERMAN FINANCIER

**Says Terms are Not Unreasonable and Commends Authors**

BERLIN, May 9.—(By The A. P.)—The advice which Robert Friedlaender, widely known industrialist and financier gives his countrymen in an examination of the allied ultimatum and protocol, is this:

"The fate of Germany and her future good name are in our hands; let us go to work. This document has been drawn up by sober-minded, calmly calculating business men, who have carefully weighed the prerequisites upon which their conclusions are based."

Herr Friedlaender believes the allies' terms are acceptable, he says, because they are not unreasonable. He commends the authors of the reparations document and the ultimatum for wisely having refrained from projecting the questions of guilt or moral responsibility for the war into the present issue.

He tells his countrymen they have a thorny, rocky road ahead, but that acceptance now will remove "the paralyzing burden of uncertainty," and enable Germany's economic organization to settle down to the job of producing the surplus needed to meet the reparations terms. He concludes that the terms of these efforts probably will not be visible for the first two or three years, but thinks they would assert themselves within a few years afterward.

## REPORT FOREST FIRES IN MICHIGAN

DETROIT, May 9.—Forest fires were reported sweeping large areas in half a dozen Michigan counties today. Most of the fires broke out on Sunday and hundreds of men were at work today to check their progress. So far as known no towns were in danger tonight, but the fires were running rapidly owing to the dryness of timber and brush. The fires were reported in Antrim, Kalkaska, Emmet, Cheboygan, Gogebic and Grand Traverse counties.

## AIR MAIL PILOT BROKE THREE RECORDS

Omaha, May 9.—W. A. Yackey, relief air mail pilot of Omaha, broke three records on the Omaha-Cheyenne division in two days. It became known today Saturday he lowered his own record from North Platte, Neb., to Cheyenne, by from two hours to one hour and fifty minutes. He then flew back to North Platte in the same time, traveling at a rate of 150 miles an hour. On his last trip from Omaha to North Platte he made the trip in one hour and 47 minutes.

The St. Louis Globe-Democrat says that when Illinois is divided into two states, the southern part might well be added to the state of Missouri and make St. Louis its metropolis. The only thing in the way of this plan is the fact that Illinois is to remain as a single state.

On another page of this paper appears a statement by the tuberculosis board relative to its

finances. The figures cover a three year period and show the amount expended in preparing the tuberculosis sanatorium, the funds received from the county and the amount of the present indebtedness. The board is presenting these facts because the public is being asked to provide additional funds thru taxation for the completion of the sanatorium. The statement is of interest to every resident of the county and should be given careful attention.

Farmers of the country, as the producers of foodstuffs, have it in their power thru proper organization to take a very important place in the business world. They are entitled to recognition as the men who produce the things that are basic. Nevertheless, there is danger of moving forward too rapidly in their organization plans and in attempting too many big things at one time.

Northern states have furnished some disastrous examples of big business enterprises attempted by the farmers without their understanding and preparation. There are numerous instances of failure in the effort to operate packing plants and there are other intricate lines of business including marketing, which demand large experience and a wide range of knowledge.

Members of the legislature who predict an adjournment before the present month is over have probably not taken into account all the important matters that remain for action. The chances are that the legislature will adjourn at just about the usual time.

A bureau of citizenship under the Department of Labor is created in a bill introduced by Congressman Albert Johnson of Washington, Chairman of the House Immigration Committee. It takes the place of the Bureau of Naturalization and extends the duties of that bureau so as to provide for the "guidance, protection, and better economic distribution and adjustment of our alien population." With so much unrest and so many unemployed too much cannot be done in the way of Americanization, in teaching what citizenship means.

The former director general of railroads underestimated the amount the government would be compelled to pay the railroads by about \$300,000,000. But what does such a small sum as that amount to when the railroad problem is under consideration.

Senator Medill McCormick has been selected as chairman of the Republican Senatorial Committee, succeeding Senator Miles Pindexter who retires because he will be a candidate for reelection in 1922. Senator McCormick is exceptionally well-versed in international problems, a fact

which has but strengthened him in his pronounced nationalism. He will put ginger into the senatorial campaigns of 1922 and he may be depended upon to bring in a few more Democratic scalps.

## FOREIGN TRADE FINANCING VITAL

The somewhat better conditions in the United States, says the *Beebe Review*, and the fact that in the progress of readjustment we have just passed beyond the point where we are assured, by a Federal Bank authority, that there is now no danger of any general financial trouble in this country, should not warp our views as to what the international situation means to us.

Unsold goods are piling up in our warehouses—not only raw material, but manufactured articles. Our production is too great for our internal consumption, and we must have foreign markets to take the surplus or there can be no prosperity. While we can exchange some of our goods for foreign goods and for gold, a great balance of trade besides this must be provided for by extension of credit. And in that way only can our enormous surplus of exports be financed. And this financing cannot be done on short-period paper. It must be predicated upon long-term credits, and Mr. McHugh, who is chairman of the Organization Committee of the Foreign Trade Financing Corporation, shows how collateral to secure such loans will be selected with extreme care, and against the collateral the Corporation will issue its debentures under the general supervision of the Federal Reserve Board. These debentures will be sold in the open market as other securities are sold, seeking the investment funds of the country to absorb them, and thus avoiding any trespass upon ordinary commercial banking funds.

## HEALTH DEPARTMENT OFFICIAL HERE

S. T. Barker, representing the state department of health, was in Jacksonville yesterday to inspect the water plant. Mr. Barker came particularly for the purpose of finding out what are the local arrangements for the proper testing of the water. He expressed himself as very much pleased with the plant and said that bacteriological tests which the state department recommends can be made daily in a satisfactory way by someone connected with the water department.

Tests will be made several times a day at the plant to determine the facts about the chemicals being used in filtration work. Bacteriological tests should be made once in every 24 hours.

## ORGANIZE FOR C. OF C. CAMPAIGN WORK

Officers Chosen for Executive Committees—Various Committees Will be Named Soon.

The executive committee, in its first session, Monday noon, at the New Pacific hotel, made material progress in the plans to organize a modern Chamber of Commerce, by agreeing on a number of points in connection with the organization work.

Richard Y. Rowe, in whose hands with the assistance of the other members of the committee, will rest, in a general way the direction of the movement, was elected chairman. J. Herman was chosen as vice chairman, J. W. Merrigan as treasurer, and J. S. Hackett as secretary.

The executive committee authorized the appointment of a committee on committee to determine the personnel of several other groups who will assist in working out the many details connected with the different phases of the work.

There is one feature of the preliminary organization work which should be emphasized and clearly understood, and that is its temporary character. There should be no confusion in the public mind as to the relation of the men who have volunteered to give their time to assist in the organization of the chamber. These citizens have taken hold of the work because it is a work that must be done.

With the close of the drive for memberships, the executive committee and the officers selected, and all others will automatically cease to exist and their members will assume exactly the same rank as all other members who join the chamber, that is merely members.

The membership enrolled will be absolutely free to nominate and choose directors, and no man serving on a committee or in any other capacity whatsoever will have any priority of consideration in the choice and selection of the board of directors. The votes of the members alone will determine the personnel of the governing group of the Chamber of Commerce, by the most democratic method known and used in hundreds of other cities having successful civic-commercial organizations.

### MISS HOFFMAN DIED VERY SUDDENLY

Passed Away at a Springfield  
 Hospital After Taking an  
 Overdose of Medicine.

The death of Miss Lota Hoff-  
 man of this city occurred at  
 12:15 o'clock Monday morning  
 at St. John's hospital in Spring-  
 field. Miss Hoffman went to  
 Springfield Sunday and was a  
 guest at the home of Mr. and  
 Mrs. Ryan. For years she had  
 been subject to attacks of  
 bronchial asthma and had a  
 medicine which she constantly  
 kept near her. It was as a re-  
 sult of an over-dose of this medi-  
 cine that she became seriously ill  
 and was rushed to the hospital  
 from the Ryan home. Her death  
 occurred a few hours afterward.

Miss Hoffman was born in Ver-  
 sailles in August, 1882, and so  
 was thirty-eight years of age.  
 She was a daughter of Mr. and  
 Mrs. Joseph Hoffman and her  
 home had been in Jacksonville  
 for the past twenty years. Miss  
 Hoffman was a young woman  
 with many admirable qualities  
 and was held in high esteem by  
 her friends.

She is survived by her mother,  
 Mrs. Martha Reed, of 225 Reid  
 street; her father, Joseph Hoff-  
 man of Wantonga, Okla., two  
 brothers, Otis Hoffman of 510  
 North Prairie street and W. H.  
 Hoffman, 303 East Independence  
 avenue, and one sister, Mrs.  
 James Hurst, 728 North East  
 street.

The funeral service will be  
 held Wednesday afternoon at  
 2:30 o'clock at the home of  
 Otis Hoffman. Interment will  
 be in Jacksonville cemetery.

After the news of the death  
 had been received here, J. L.  
 Fayman drove to Springfield and  
 brought the remains to the Gil-  
 ham Funeral Home.

 my trouble dissipated. The backache stopped and  
 my kidneys were restored to a healthy, normal  
 action. I am also freed of those tired spells and  
 headachings and am now as energetic as ever. My  
 recovery is entirely due to Foley Kidney  
 Pills, which I gladly recommend."

**Tired Out?**  
 Do you know that languidness, that  
 "awful tired feeling," heaviness, lame  
 or weak back, sore muscles, stiff or  
 swollen joints, rheumatic pains, lum-  
 bago, in the great majority of cases,  
 indicate kidney trouble?

**Foley Kidney Pills**  
 act promptly and effectively to restore  
 weak, overworked or diseased kidneys  
 and bladder to a healthy condition.

Mrs. Robert Blair, 461 S. 20th Street, Terre  
 Haute, Ind., writes: "I suffered two years  
 with kidney and bladder trouble frequently get-  
 ting backache. Mornings I would arise feeling  
 very tired and having headaches, and see float-  
 ing specks before my eyes. I saw Foley Kid-  
 ney Pills advertised and made up my mind to  
 try them. After taking them a few weeks I found  
 my trouble dissipated. The backache stopped and  
 my kidneys were restored to a healthy, normal  
 action. I am also freed of those tired spells and  
 headachings and am now as energetic as ever. My  
 recovery is entirely due to Foley Kidney  
 Pills, which I gladly recommend."

A LARGE number of women's ailments are not surgical  
 ones. Serious displacements or radical changes have not  
 yet taken place.

A tiny part in a fine clock may become loose and cause the  
 clock to gain or lose. If not attended to in time, the part may  
 fall from its place and cause serious trouble. So it is with  
 women's ailments; they start from simple causes; but if allowed  
 to continue, produce serious conditions.

When the warning symptoms are first noted, take Lydia E.  
 Pinkham's Vegetable Compound to relieve the present trouble-  
 some ailment, and to prevent the development of serious trouble.

North Troy, N. Y.—"V. hen I was a  
 young girl I had a severe female  
 trouble. Mother gave me Lydia E.  
 Pinkham's Vegetable Compound and  
 after taking several bottles I was  
 strong and well. When my daughter  
 got married she was feeling miser-  
 able and I recommended your medi-  
 cine. She is greatly improved in  
 health and has a beautiful baby boy  
 four months old. So you see this  
 letter comes from the third genera-  
 tion and you may use it as you  
 wish."—Mrs. R. M. GREENAWAY, 567  
 4th Ave., North Troy, N. Y.

Hutchinson, Kan.—"I was about  
 13 years old when I developed  
 a female weakness. My mother took  
 me to a doctor and I doctored for  
 several months. I was too sick to do  
 anything, was as thin as could be,  
 and my complexion was yellow.  
 Mother had used Lydia E. Pinkham's  
 Vegetable Compound and it had  
 helped her so much that she got  
 some for me and before I had finished  
 the second bottle I was feeling fine  
 and have been ever since."—Mrs.

Nelson as a representative Mother presided during the session of the school.

Announcement was made of a challenge issued by the class of young men taught by Mr. Lent to an attendance contest during the month of May. ## BLAIR SENDS OUT LETTER TO TEACHERS

Urges Observance of Memorial Day and Emphasizes Its Significance.

SPRINGFIELD, Ill.—(By The Associated Press.)—Francis G. Blair, state superintendent of public instruction, has just prepared a Memorial and Peace Day booklet for Illinois school teachers. The educational influence of Memorial Day cannot be overestimated, he tells the teachers in an accompanying letter. He says: "Can we observe Memorial Day, can we honor the memory of the heroic dead, without arousing a warlike spirit in the children's hearts?"

"Wars for the defense of human rights and liberties will always find justification in the minds and hearts of right thinking and right feeling people. The honoring of those who died in such wars will and should exalt in the thought of our children the righteousness of the acts and the cause for which they died. Hatred and bloodlust do not spring from hearts filled with a noble reverence for noble deeds. "Moreover, respect for those who died fighting for a cause which they believed was just, however much we may have differed with them, fosters the true Christian spirit.

He who lays a wreath of flowers upon the grave of a soldier is not placing it upon the frowning brow of Mars. Memorial Day should be our great peace day. Its educational influence cannot be overestimated. As the teachers of the youth of a nation we must realize the truth of the statement:

"Foredoomed to death  
That land whose youth breathe  
not the breath  
Of history—its fame and glory  
died."

Whose children honor not their noble dead."

The booklet is an attractive little volume of 48 pages. It is dedicated to members of the Grand Army of the Republic, United Spanish War Veterans and Veterans of the World War.

## JAZZ IS THE EVIL SPIRIT OF MUSIC

(By The Associated Press)

CHICAGO, May 9.—Jazz is the evil spirit of music, Dr. Frank E. Morton today told representatives of the music industries, merchants, manufacturers, tanners, travelers, band-instrument men and talking machine men at the Music Trades convention which opened today.

"Jazz," he said, "expresses hysteria and incites to madness, revelry, dissipation, destruction, discord and chaos."

Pleading for the suppression of jazz music and a return to "Home Sweet Home," he declared that with home swallowed up in the cabaret, the great stabilizing center of society is lost.

**MAYOR CRABTREE NAMES COMMITTEES**

Are Chosen for Ensuing Year—Routine Matters Attended To.

Mayor Crabtree announced the appointment of standing committees for the ensuing year at the regular meeting of the city council Monday evening.

Aside from this only routine business was transacted and adjournment was taken at 8:30 o'clock.

When Clerk Scott called the roll it showed all members present Mayor Crabtree presiding. The minutes of the last regular meeting were read and approved.

Mayor Crabtree announced the following standing committees for the ensuing year:

Finance—Rowe, Chapin, McGinnis.  
Police—Cain, Flynn, Ehnie.  
Fire—McGinnis, Cain, Williamson.  
Highways—Williamson, Cain, McGinnis.  
Sewers—Flynn, Williamson, Loneragan.  
Public Health—Ehnie, Rowe, Flynn.  
Cemeteries—Ehnie, Chapin, Rowe.  
Public Improvement—Loneragan, Rowe, Ehnie.  
Water and Light—Chapin, Williamson, Loneragan.  
Judiciary—Cain, Flynn, McGinnis.  
Ordinance—Loneragan, Chapin, Cain.

Ald. Williamson called attention to a complaint that had been made to him of two sewers emptying into Sandusky street. The matter was referred to the sanitary committee.

Ald. Ehnie reported that flowers had been purchased for both cemeteries and he had ordered the grass in both cemeteries cut before Decoration Day.

Mayor Crabtree called attention to the license for popcorn wagons. The mayor said under the old ordinance it was \$1 per month which was too cheap and under the new ordinance it was five dollars per month which he was afraid was too high. No action was taken in the matter at the time.

On motion of Ald. Chapin the city clerk was instructed to advertise for bids for brick in the boilers at the new power plant. Plans and specifications may be seen at the office of the Caldwell Engineering company.

On motion of Ald. Williamson the city clerk was instructed to advertise for bids for building intersections.

Ald. Flynn asked if the Board of Local Improvements had done anything about sewers in the Second ward. Mayor Crabtree said the matter was being considered.

Ald. Loneragan asked if the sewer committee was given power to act in the matter of allowing Mr. Heneghan to attach to the sewer of W. L. Sullivan in West Chambers street. The council records showed that this was the action and Mr. Loneragan said he believed something should be done to give the needed relief.

This matter was discussed at length by members of the city council and P. A. Heneghan, W. L. Sullivan, Engineer Henderson and P. J. White. It was finally decided that the sewer committee would meet Tuesday evening and take some action in the matter.

H. K. Chenoweth, new city treasurer, was present and was called upon and spoke briefly.

Ald. Ehnie asked Mr. Caldwell what had been done about Alley D. Sewer. Mr. Caldwell said Mr. Spencer expected to do the work soon.

John Burkley told the council that he wanted North East street oilled and said he did not believe they would find many objectors on the street. The council then on motion adjourned.

**COL. CLIFFORD HAS ENTERED ON DUTIES**

As Assistant Secretary of the Treasury He Will Co-Ordinate Activities of Ex-Servicemen.

The Washington (D. C.) Star in a recent issue had an extended notice about the work which Col. Edward Clifford has undertaken as assistant secretary of the treasury. The article said in part:

Co-ordination of the activities in behalf of ex-service men will devolve upon Col. Edward Clifford of Chicago, who yesterday was sworn in as assistant secretary of the treasury. He is to be the director general of all of this work, and was appointed to the assistant secretaryship with that idea in view, it was learned.

Col. Clifford is an overseas war veteran and has been prominent and active in the organization of the American Legion. It is expected that he will push forward the work of carrying out the recommendations of the committee, headed by Gen. Charles G. Dawes, which recently made an investigation of the activities.

The committee recommended that all of the activities in behalf of the ex-service men should be centralized and placed under one directing head. This includes the war risk bureau, the bureau of vocational training and the veteran hospital branch of the public health service. As there is no law permitting the appointment of a director for this work, some one in the government had to be assigned. Therefore Col. Clifford was decided upon, knowing the efforts of the Legion and commanding its respect as he does.

Many government officials were present yesterday morning when he was sworn in. They included Secretary Mellon of the Treasury, Secretary Weeks of the War Department with whom he served in the Republican national headquarters in New York; Senators McCormick, McKinley and Wells, prominent army officers and Corporal Thom of this city.

Col. Clifford, after taking office, announced the appointment of Mercer Vernon, formerly of Everett, Wash., but for several years a resident of this city, as his secretary. Mr. Vernon served in the navy during the world war and is a member of the National Press Club Post, American Legion.

Hart, Mrs. Dan Ward, J. C. Swain, Mrs. Frank Hunter, Charles Palmira, Mrs. R. W. Robinson, Mrs. Walter Wheeler and Miss Anna Mae Wilson.

Col. Clifford is an overseas war veteran and has been prominent and active in the organization of the American Legion. It is expected that he will push forward the work of carrying out the recommendations of the committee, headed by Gen. Charles G. Dawes, which recently made an investigation of the activities.

The committee recommended that all of the activities in behalf of the ex-service men should be centralized and placed under one directing head. This includes the war risk bureau, the bureau of vocational training and the veteran hospital branch of the public health service. As there is no law permitting the appointment of a director for this work, some one in the government had to be assigned. Therefore Col. Clifford was decided upon, knowing the efforts of the Legion and commanding its respect as he does.

Many government officials were present yesterday morning when he was sworn in. They included Secretary Mellon of the Treasury, Secretary Weeks of the War Department with whom he served in the Republican national headquarters in New York; Senators McCormick, McKinley and Wells, prominent army officers and Corporal Thom of this city.

Col. Clifford, after taking office, announced the appointment of Mercer Vernon, formerly of Everett, Wash., but for several years a resident of this city, as his secretary. Mr. Vernon served in the navy during the world war and is a member of the National Press Club Post, American Legion.

**I. W. C. MAY DAY FETE A VERY UNIQUE EVENT**

Students Yesterday Gave Artistic Presentation on Lawn — Play Penned by Local Man.

What was proclaimed by many to be the most picturesque and artistically conceived May Day fete ever presented at Illinois Woman's college was given yesterday afternoon on the college campus. A large crowd witnessed the beautiful annual May fete and the directors and students participating in the event are to be congratulated on its success.

The action was based on a very clever and artistic scenario written and directed by John Kearns. The time was a May morning about the year 1000 A. D. The setting for the play was particularly charming and picturesque. It represented a wide sweep of road leading toward London Town and St. John's woods. Various things gave a delightful local color to the scene. An old well with a cleverly constructed well-sweep, a shrine in the ticket, a scaffold with a limp body swinging in the breeze, and a Hawthorne tree around which the dancing entered, made the scene appear as a real bit of old England.

**Panorama in Two Parts**

The panorama divided into two parts, morning and evening. In the first part, the witches after a hard night's revel were on their way back to their haunts in St. John's woods. Murmuring incantations, the witches, in their picturesque costumes with black pointed hats, did a weird dance around the Hawthorne tree. The Dwarf, who was always frolicking among the dancers picked a blossom from the Hawthorne tree, and in so doing pricked his finger. His mother, the Queen of the Witches, in a spirit of revenge cast a malignant spell over the tree. The chimney sweeps, in their smoky costumes and each carrying a broom then came in and danced until chased away by the Dwarf.

The picturesque farmer lads and milk maids came along the road and started to dance but the Dwarf jumped out from the thicket and frightened them away. The fays in lovely costumes of different shades, then crept out of the thicket and did a most charming and artistic dance. As they were dancing a mounted Knight and his Esquire passed by. The Knight seeing the pretty Queen of the Fays, pursued her and started to embrace her, but she eluded him and he clasped the wicked little Dwarf instead.

**Queen's Party Was Charming**

The Queen's party was one of the most charming ever seen on the campus. Miss Sue Wade, the May Queen, garbed in royal robes, rode in a chariot drawn by two horses. Her escort included her maid of honor, two pages, two adorable little cupids, George and Jay Hamilton dressed in red costumes and the ladies-in-waiting who carried baskets of flowers. The Queen, in plucking a branch from the Hawthorne tree, fell under the magic spell, and the Knight, also under the spell, embraced the Queen while the Dwarf looked on in fiendish glee.

The King and his escort then appeared and the Dwarf informed the King of the recent episode of the Knight and Queen. A struggle followed but Robin Hood and his band rushed out of the thicket and put the King's men to flight.

**The Queen of the May**

In the second part the disgraced Queen was brought back by the King and condemned to die on the scaffold. But Robin Hood's men again came to the rescue and released the Queen. The Dwarf then confessed and the Queen was crowned. Miss Ruth Harker, last year's Queen, in a pretty ceremony then crowned Miss Wade as the May Queen of 1921.

One of the most notable features of the production was the procession along the London highway. The milk maids, farmer boys, fishermen, fine ladies and gentlemen, a farmer lad leading a cow, artisans, shepherds and goose girls driving a flock of geese and many others made up the motley crowd that passed along the way watching the dances and drinking at the well.

**The May Pole Dance**

Margaret Sturgeon as Jack-in-the-green, Lucile Vick, as Hobby Horse and Margaret McCray as the Dwarf, furnished antics that kept the audience laughing all the time. Trundled in on a wheelbarrow as a bunch of rags, Miss Martha Sellow did a charming interpretive full of rhythmic and motion. The chimney sweeps and milk maids danced around the May pole while the farmer boys looked on.

Music was furnished by the college orchestra, directed by Mr. John Kearns. Miss Veriel Black was chairman of the May Day committee and was assisted by Margaret Hamilton, Mildred Goodwin, Cora Cherry, Melba Hamilton, chairman of costume committee, Margaret Merker, chairman of music committee, and Vera Wardner and Leona Switzer of the dance committee. Following are the main characters of the production:

CHURCHAt the close of services Sun-  
day morning there was a meeting  
of the members of the Congrega-  
tional church for the purpose of  
considering a few matters of in-  
terest. The new pastor, Rev.  
George Stickney desires to use  
every effort to become fully con-  
versant with all the work of the  
church and in touch with the  
members and friends of the or-  
ganization and incidentally with  
those who should be members.To that end a special council  
consisting of the chairmen of the  
various activities of the church  
was appointed and will consist  
of about fifteen persons drawn  
from the trustees, ladies' aid,  
various young people's organiza-  
tions, prudential committee and  
others. They will assist the new  
pastor in the work he wishes to  
accomplish and will have charge  
of various minor matters, such  
as evening services for a time to  
come and other things to come  
before the body. The wish of  
Mr. Stickney is very wise as he  
desires to get fully into the har-  
ness as soon as possible.The men's brotherhood were  
authorized to conduct a forum  
the coming year and steps will  
at once be taken to make the  
enterprise a success. Dean Scott

state association.

## DECORATION DAY.

Decoration or Memorial Day is  
approaching and it is time steps  
were being taken to arrange for  
the program. The members of  
the Grand Army are few and  
their ranks are decreasing each  
year. They have looked after  
the matter for a long time and  
are yet ready to do all in their  
power but it is likely that young-  
er persons will sooner or later be  
called on to carry forward the  
work for the custom should ever  
be observed and it would be fit-  
ting to include the last resting  
places of those who fell in the  
World War also.

## Prettier Teeth Next Week

If you will now start this delightful test

This is to offer you a way to whiter teeth,  
cleaner, safer teeth. Such glistening teeth as  
millions now enjoy.Your dealer will give you the means. Get  
it and watch the effects. See your teeth grow  
prettier—note how clean they feel.Dentists everywhere advise this method.  
Millions of homes have adopted it. Try it  
this week, for your own sake. Learn what it  
means to you.

## To remove the film

Your teeth are coated with a dingy film.  
It is viscous—you can feel it with your  
tongue. It clings to teeth, enters crevices  
and stays. It clouds the teeth and causes  
most tooth troubles.The ordinary tooth paste does not ef-  
fectively combat it, so the tooth brush has left  
much of it intact. As a result, teeth lose  
their luster. And, despite all brushing, tooth  
troubles have been constantly increasing.The film is what discolors, not the teeth.  
Film is the basis of tartar. It holds food  
substance which ferments and forms acid. It  
holds the acid in contact with the teeth to  
cause decay.

Germs breed by millions in it. They, with

tartar, are the chief cause of pyorrhea. Many  
other serious troubles are also traced to  
them.

## Science combats it

Dental science has long sought ways to  
combat that film. The ways have now been  
found. Able authorities have amply proved  
them. Leading dentists everywhere advise  
their daily use.The methods are embodied in a new-day  
tooth paste—Pepsodent. It combats the film  
wherever it may linger. In this way it brings  
surprising results which one quickly sees.  
Over 5,000 new people daily are trying out  
this modern method.

## Fights acids too

Pepsodent brings three other effects which  
authorities now desire.It multiplies the salivary flow—Nature's  
great tooth-protecting agent. It multiplies  
the starch digestant in the saliva. That is  
there to digest starch deposits which may  
otherwise form acid.It multiplies the alkalinity of the saliva.  
That is Nature's neutralizer for the acids  
which cause decay. Pepsin is also included.PAT. OFF.

your teeth improve. The delight-  
ful effects will very soon convince  
you what is best.Every application of Pepsodent brings five  
distinct results. And modern authorities con-  
sider all 4 them essential.

## Now a world method

In many countries Pepsodent is fast dis-  
placing old teeth cleaning methods. Dental  
authorities the world over endorse it. Care-  
ful people must adopt it sooner or later, for  
old methods are not right. With them, tooth  
troubles and discolorments have become al-  
most universal. A change must come, and  
now is the time to start it.

## Quick changes come

The user of Pepsodent quickly feels con-  
spicuous changes. One cannot doubt the  
benefits it brings.Perhaps men who smoke see the most con-  
spicuous effects. Their films are tobacco-  
stained.Women see them in prettier teeth, for most  
film-coats are dingy.But Pepsodent is most important to the  
children. Their teeth seem most subject to  
these film and starch attacks. Dentists ad-  
vise that children use Pepsodent from the  
time the first tooth appears.Present the coupon for a 10-Day Tube. Note  
how clean the teeth feel after using. Mark  
the absence of the viscous film. See how  
teeth whiten as the film-coats disappear.

**SEED CORN—We have had**  
a wonderful season in Mason City  
this year for maturing seed corn  
with the result that we have the  
finest lot of well dried 1920 crop  
of seed corn that we have ever  
grown. This corn is gathered  
in the fall and placed on drying  
racks when it is very slowly  
dried down to twelve or four-  
teen per cent moisture content.  
This gives corn a very high  
vitality. We have been in the  
seed corn business in a large  
way for over thirteen years and  
have the largest and best  
equipped drying plant in the  
world. Our down town plant is  
in the center of Mason City,  
right on the hard road between  
Springfield and Peoria. It is  
well worth a trip to Mason City  
to see this corn. Price is only  
\$3.50 per bushel. Write for

**RODE TO HANNIBAL**  
Sunday Chester Joy took his family and drove to Hannibal going over the Pike's Peak trail. He found good roads most of the way tho the going was a trifle rough as he neared Hannibal. He said the trail was marked and easy to travel.  
The name of Pike's Peak trial brings to the writer many recollections of the early days sixty or more years ago, when there was such an exodus to Pike's Peak in search of gold. Thousands started for the supposed Eldorado tho few reached the great mountain as they learned of the hoax before arriving there. The story was gotten up by a lot of sharpers who wanted to sell outfits and they disposed of a large quantity.  
One would-be miner painted on the cover of his wagon as he went out, "Pike's Peak Or Bust," and returning added below the first, "Busted, By Thunder."
